- SEO improvements

Sprint Napa Cabbage

- Application version upgrade to 2.3.2 extending changes to agile team in an event its not completed in sprint Mint
- Seller Analytics
- Analytics/Reporting
- SEO improvements
- Integration with Delta Bid

Bar chart — Actual Capacity (blue) vs Delivered Story (orange):

Sprint	Actual Capacity	Delivered Story
Sprint Cabbage	340	340
Sprint Dill	320	330
Sprint EggPlant	360	363
Sprint Fennel	380	380
Sprint Garbanzo	360	380
Sprint Habanaro	348	380
Sprint Iceberg	332	362
Sprint Jalapeno	300	325
Sprint Kale	344	377
Sprint Leeks	360	386

Fidelity Percentage

Sprint	Sprint Dill	Sprint EggPlant	Sprint Fennel	Sprint Garbanzo	Sprint Habanero	Sprint Iceberg	Sprint Jalapeno	Sprint Kale	Sprint Leeks
Delivered Story/Actual capacity	103%	101%	101%	106%	109%	109%	108%	110%	108%

Risks/Issue

Risk/Issue	Mitigation	Owner	Due date
Limited development capacity for new features in Sprint Napa	Buyin from business team to fix upgrade issues first and then utilize reminder capacity for feature development	TCS DEV	10/03

Automation Progress

Highlights

- Script development of 1 test case regarding Conversations - Seller: Add Part, assigned on 09/12, is in on-hold due to 01 defect identified.
- Script development for 09 test cases assigned on 09/18, of which 08 completed and 01 is in on-hold due to test data issue.
- Script development for 04 new test cases assigned on 09/19, is completed
- 03 test cases needed minor test data/test step changes, script is updated for the same and pushed onto Bitbucket.

Next Actions

- Bharath is in the process of analyzing 120+ stories that were added over the course of last 4 months to create the BDD. 45 Stories analyzed so far out of which 7 already automated, 11 BDDs newly created/updated and assigned to Subhra for automation
- Seller Storefront related BDDs will be created next as prioritized by Business
- Creation of BAT files on VM to execute recent Test cases developed. Current ETA- 09/30

Risks/Issue

Risk/Issue	Mitigation	Owner	Due date
Risk: Any delay in assignment of BDD steps will delay the automation script development activities.	Discussed with Bharath and he is actively looking into creating BDDs in batches every Sprint	Bharath and Subhra	Recommend: BDD Steps should be assigned in the 1st week of every sprint start

Sprint Execution Progress

Sprint	Planned Timeline		Efforts							Remarks	Status
	Start	End	Committed	Actual- Wk1	Actual-Wk2	Actual Wk3	Blocker	Deferred	Not completed
